Adamson Industries® Corp.

Law Enforcement Vehicle Equipment & Installation Services

NATIONWIDE INSTALLATION

Get your law enforcement vehicles upfitted without getting up tight!

Adamson Industries Corp. makes it easy to upfit law enforcement vehicles.

If your law enforcement vehicles require “add-on” equipment to make them service ready, let us save you time, money and headaches when upfitting existing, factory by-pass or out-of-stock vehicles.

Our facility and installers provide completed “turn-key” units, no matter how large or small your agency. Adamson Industries can help handle it all. Coordination & expediting of all equipment including light systems, prisoner partition, siren systems, K-9 units, graphics and much more.

- Partial installation so your agencies technicians can complete the unit to their specifications.
- Full installation including paint, decals, radios supplied by your agency or brand new radios if you prefer.
- Your vehicles arrive by truck complete and ready to go into service...even K-9 units!
- All carriers are fully insured and have many years of experience transporting vehicles...1 or 101 or more.

We can also install equipment you provide to us.

If it’s your fleet you want up and running - call Adamson Industries Corp. today. We’ll get it “Service Ready” fast.

How does it work?

Notify your automobile dealer you would like your vehicles drop-shipped to the following codes:

- 88B363 for Ford vehicles
- 52414 for Chevrolet vehicles
- T7177 for Damler Chrysler vehicles

Your vehicles will ship directly from the factory to us at no additional cost. You can either send us all, or some of the equipment to install...NEW or USED.

We also offer application of your graphics or custom paint, and we can save you money.

For more information call:

1-800-232-0162

A VHS tape or CD ROM describing our services is available by calling 1-800-232-0162.

Adamson Industries Corp.®
turns cars into tools designed for high productivity. That means helping you get more done safely, with fewer set backs.

Adamson's Repair Service and Parts Facility

Adamson's installation, repair and parts facility where highly skilled technicians design vehicles to be safe and easy to use, always putting officer safety first. All installed components must meet rigid standards of thoroughly testing and inspecting consistently. The facility also incorporates a comfortable indoor viewing area.

Our Full-Line of Services Include...

- **Full or Partial Equipment Installation**
- **Nationwide Shipping by Truck**
- **Paint and Decal Department:**
  Installations of appropriate colors and decals to create a completely new look or to match existing units in service.
- **Repair Service and Parts Facility:**
  Servicing and refurbishing of used equipment helps make Adamson Industries Corp.® your single source provider.
- **Quality Control Department:**
  Components are tested to meet rigid standards. Vehicles are inspected and tested thoroughly. Your Police vehicle will run safely and consistently.
- **Customer Viewing Area:**
  Our indoor Customer Viewing Area permits you to view your vehicles comfortably regardless of the weather.
- **Safety:**
  Officer safety is our number one priority at Adamson Industries Corp.® Our highly skilled technicians design vehicles to be safe and easy to use. How? By looking at an officers day-to-day potential for hazards and injuries.

  Safety feature options include:
  - Prisoner Partitions
  - Ergonomic Seats
  - Rear Prisoner Restraint Seats
  - Equipment Organizers
  - and much more.

Police Vehicles Designed by Experienced Technicians

The quality and efficiency of our units are reflected in the people who design, build and service them. Both our technicians and our service team have years of experience in the Law Enforcement industry.

The Benefits of Drop Ship Services:

- **Convenience, Cost-Savings, Quality, Consistency**
  Since 1985 Adamson Industries Corp. has helped fleet administrators obtain higher quality in their law enforcement vehicles and save money and time using our drop ship service. Simply order your vehicles from the dealer of your choice, provide the dealer with our drop ship code. Your vehicles will be shipped from the auto manufacturer directly to us.

Drop-Ship Service:

- Drop-Ship Service is a service offered by Ford Motor Company, General Motors and Daimler Chrysler for up-fitting vehicles. Simply notify your vehicle dealer that you would like your vehicle shipped to us for up-fitting. Upon completion we will ship your up-fitted units to your Agency.

Dear Customer,

The goal of Adamson Industries Corp. is to provide on-time delivery of quality law enforcement vehicle products and services to our customers. We promise to provide safe, efficient quality law enforcement vehicles. Our personnel will be professional & experienced, and will be responsive to customer needs. Our employees and customers will be treated fairly and honestly. This is our pledge to you.

Sincerely,

Steven Contarino
Vice President

LED Dash and Deck Lights

Talon™ Series — Interior Only

SELF-CONTAINED Linear8™ Super-LED™ DASH AND DECK LIGHTS

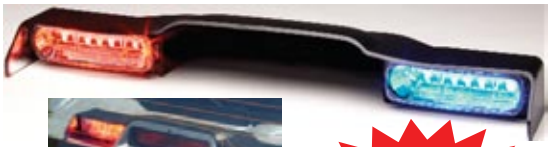
WHELEN
Engineers for the Emergency Warning Industry

Only $169.95

DAL-TLN1A

Only $279.95

DAL-TLN2BR



NEW!

TLNCV5

- Straddles 3rd brake light with two Linear LED lightheads in molded polycarbonate housing for 98-07 Ford Crown Victoria.
- External low power control.
- 4 Scan-Lock flash patterns with simultaneous, alternating and cycle patterns with steady flash and steady burn.
- Supplied with 4 wire pigtail.

Great for Deck-Over Rear View-Dash

TLN Models

- 21 Scan-Lock™ flash patterns on dual model, and 15 Scan-Lock patterns on single model.
- Selection switch for flash pattern is located on the back of the lighthead.
- Split LED models available. For additional available split colors, please contact factory.
- Eight foot straight cord with cigar plug On/Off switch and LED indicator.

Unlit TLNS1 with synchronize 3 wire pigtail

TLNS Models

- Synchronize models for unified warning lighting on your vehicle.
- 5 Flash patterns with Phase 1 and Phase 2 for alternate and simultaneous flashing lamps.
- Supplied with 3 wire pigtails.

Don't let the small size fool you. This compact, lightweight warning light packs full-size Linear8 Super-LED power that rivals strobe in intensity! Now you can have serious warning protection in a package that's easy to mount or transfer from vehicle to vehicle.

FEATURES:

- Single module weighs only 13.5 ozs.
- Single or dual module, Linear8 Super-LEDs.
- Selection switch for 21 flash patterns on dual model, and 15 patterns on single model is located on the back of the lighthead.
- Swivel bail bracket with suction cups, standard.
- Eight foot straight cord with cigar plug On/Off switch and LED indicator.
- Snap-on polycarbonate hood secures with two screws, minimizing flashback to the operator.
- Lightweight but sturdy, rated for 100,000 hours of operation.
- Polycarbonate assembly is safer in vehicle in the event of an accident or airbag deployment.
- Small size and clear outer lens make Talon barely detectable until powered on.

Competitor™ Series SpecTIR™ LED Dash Light

Dash mount pint-sized light that throws a full-sized punch! Whelen reliability in an economical LED dash light specifically designed with the volunteer market in mind.
High output, GEN3 LED technology produces incredible high intensity warning in a compact design that fits easily and snugly to the windshield. Eight high intensity LED’s are available in single or split color combinations at a surprisingly low cost. Each light provides multiple Scan-Lock™ flash patterns and includes 8 ft. cord with cigarette plug with On/Off Switch and LED On indicator.

Features:
- High performance/low cost warning lights.
- LED module alignment screw easily adjusts light module angle for maximum light intensity for any windshield angle.
- 17 total Scan-Lock flash patterns to choose from.
- 3 suction cups securely hold dash light to the windshield.
- 8-foot cigarette cord with On/Off Switch with LED indicator.
- 12VDC with super low current draw: 6 amp. solid / 3 amp. split.
- 5-year warranty.
- Available in solid or split colors.

Viper S2 Interior Warning Light

ViperS2 lights deliver dramatic light output that can be mounted almost anywhere inside the emergency vehicle. The housing is compact and made of lightweight polycarbonate that is safer in case of accident or air bag deployment. Mounting the ViperS2 is made quick and versatile with a swivel type bail bracket and suction cups. Each unit, single or dual, also comes equipped with a snap-on flash guard (no screws required) and reflective tape to help optimize forward LED light output. Wire harness lengths are five feet long with synchronized units and nine feet with cigarette plug units. Available in amber, red, or blue.(Specify Color)

DELTA RAY LED Visor Light

DELTA RAY

Ord. No. DAL-DRLEDRR1	Red Visor Light	**$159.95** ea.
Ord. No. DAL-DRLEDRB1	Red/Blue Visor Light.....	**$269.95** ea.
Ord. No. DAL-DRLEDBB1	Blue/Blue Visor Light.....	**$374.95** ea.
Ord. No. DAL-DRLEDAA1	Amber Visor Light.....	**$159.95** ea.

The Delta Ray LED visor light demonstrates Federal Signal's commitment to product creativity and advanced technological development. Delta Ray's unforgettable light intensity and unique flash patterns (designed specifically for law enforcement), offer you the finest visor mounted warning light available.

Two push-button switches control power and allow the user to scroll through 12 special warning patterns. The switches and 10-ft. DC wire cigar plug are designed for easy operation from either driver or passenger side visor. All Delta Ray models are equipped with "built-in" pattern memory; the last pattern used is the first to display when the unit is turned back on.

Features:

- Superior LED light intensity, nearly 3 times brighter than what's now available.
- Innovative 4 area light display.
- 25% larger lighting surface.
- New and unique flash patterns designed specifically for, and by, law enforcement officials.
- Small and compact, fits securely and unnoticed under most vehicle visors.
- "Built-in" pattern memory.
- High versatile switches and cigar plug suitable for operation from either side vehicle visor.
- Extremely low amperage draw (1.25 amp @ 12.8 volts).
- Easy to install, secures to most vehicle visor via two attached Velcro cinch straps.
- Designed for long life and high reliability.
- 5 Models available in combinations of red, amber, and blue.

SOUND-OFF's NEW LED-Visor™ Light

Only $144.95

LED VISOR LIGHT WITH 12-VOLT DC PLUG

Ord. No. DAL-ETVLLEDR/A	Red/Amber	**$144.95** ea.
Ord. No. DAL-ETVLLEDR/B	Red/Blue.....	**$174.95** ea.
Ord. No. DAL-ETVLLEDB/B	Blue/Blue.....	**$229.95** ea.

- **The first Generation 2 Visor Light, previous LED Visor Lights have been older Generation 1 technology.**
- **Approvals - SAE J595, California Title XIII**
- **16 Flash Patterns, including European and CA Steady Burn modes.**
- **Extremely compact size - it's slim appearance provides clear vision when visor is in the down or up position.**
- **Available with 5 safety colors and combinations, A, B, R, G, W.**
- **Clear Outer Lenses to reduce conspicuity when switched off.**
- **LCD display for flash pattern number, no more guessing which pattern is active.**
- **Non-volatile memory remembers last pattern at power up.**
- **3 Switches to control on/off operations. This allows a passenger or driver to control the light on either visor location.**
- **No hassle 5 Year Warranty.**

HALOGEN

NOVA Microthin 30W **Interior/Exterior**

Rectangular, Directional, Microthin Relampable Remote Strobe

The **Microthin 30W** is a super thin rectangular strobe head designed for grille and rear deck applications. The **Microthin 30W** includes a Linear 30-watt strobe tube. The **Microthin 30W**, when coupled with a Nova strobe power supply, emits wide angle, high intensity strobe light bursts that identify all types of emergency vehicles in all weather conditions.

The **Microthin 30W** rectangular strobe head is small enough to suit particular applications. Designed for exterior and interior use, incorporates a rounded black housing which contains the lens/reflector assembly, the replaceable strobe tube and the AMP Mate-N-Lock connector. 1.5" Thick, perfect for installation in tight areas.

The **Microthin 30W** series rectangular strobe heads are rated for 30-watt operations and carry a one year factory-direct warranty. Choose the **Microthin 30W** series strobe head for reliable, trouble free service.

Strobe/LED Lightheads

400 & 700 Series Lightheads

The Whelen 400 & 700 Series Lightheads are ideal for the grille, bumper, rear-deck or surface mount applications. The 400 Series are available in Strobe, LED's and Strobe/LED combinations. The 700 Series are available in Strobe or LED versions only. The versatile Linear Strobe requires a remote power supply. The 5MM LED has 14 flash patterns including steady burn. The Super-LED rivals strobe in intensity with only 30% of the amp. draw. The 400 Series Super-LED's are available in single or dual level versions. The 700 Series Super-LED's are available in split color versions.

Beacons and Utility Lights

Only $119.95

FEDERAL SIGNAL CORPORATION Emergency Products

UltraStar™

Model DT-US5TP

UltraStar DT-US5

The UltraStar strobe is built for rugged applications. The polycarbonate dome and metal base are durable and corrosion resistant, and the strobe tube is housed in a silicone base that absorbs vibration. This combination of features makes a long-lasting, easy to maintain, strobe beacon. UltraStar beacons are multi-volt (12-24 VDC) and available in two heights with either permanent/pipe mount or magnetic mount. Double and quad flash units are 14 joule. Each UltraStar beacon includes a self-adhesive light shield that can be affixed to the top of the dome for increased effectiveness. These beacons meet SAE Class 1 with amber, blue, and clear domes and SAE Class 2 in red. Dimensions: 5.5"H (short) or 7.8"H (tall) x 6.6" Dia.

Order No. DT-250121	Strobe Beacon Perm. Mnt.	$119.95 ea.

- **4 Light Rear System** (4 Red Warning with Red brake/tail/turn)

Order No. GLL-HA02R4.....**$649.95 ea.**

Corner LED Lighting

(2005+ Ford Crown Victoria Police Interceptors Only)

The new low-profile Corner LEDs provide maximum light output and true color reproduction. The LED assemblies are easy to install with standard size tools and mount inside the front corner, taillight and back-up light housings, offering a sleek appearance. An additional benefit is the ability to use standard corner strobe cabling; providing overall cost savings and reliability.

Strobe Power Supplies

Offering the widest range of performance, features and economy in the industry.

- Flash pattern control.
- Multiple flash patterns are available on most power supplies, including Traffic AdvisorTM pattern on UPS690.
- Built-in intelligence. Stable on power-up, immune from false triggering.
- Auto-ranging power regulation, eliminates flash intensity variations.
- Output short circuit protection, RFI suppression, MOSFET electronics.
- Optional 4PATCTL1, not shown, four pattern control for use with WPPSC692, UPS64LX, UPS690, & UPS158.
- AMECA certified (most models) to SAE, NFPA, California Title XIII.
- Five year "HDP", heavy duty professional warranty for models UPS64LX, UPS690, WPPSC692, and complete ISP Series.
- Power listings refer to output power.

WHELEN

PS-CS220
Two outlet with 4 flash patterns, 20 watts, 12 vdc. Size: 3" W x 4.19" D x 1.5" H. Weight: 1 lb.
Order No. PS-CS220 ..... $84.95 ea.

PS-CS650

Strobe Power Supplies

EPS Xtreme Series

PS-EPSX404

40 Watt, 6/4/2 Head, Multi-Flash Encapsulated Strobe Light Power Supply
The EPS Series 40 watt Economical strobe light power supplies feature double flash, quad flash, Mega-flash and double-quad-Mega cycle repeat flash patterns standard! The thermally conductive encapsulant provides efficient heat sinking, as well as making the power supply vibration-proof and waterproof.

- Microcontroller based double flash, quad flash, Mega flash and double-quad-Mega cycle repeat!
- MOSFET circuitry for cool and quiet operation.
- Multi-voltage input standard: 10 to 30 VDC.
- Over-voltage/ absent flashtube protection.
- High/Low intensity control.
- Tube De-ionization circuit to prolong flashtube life.

NOVA Ultra-Pak

185 Watt, 12/10/8 Head, Multi-flash stereo strobe light power supply.

The PS-Ultra-Pak-185 is a heavy-duty twin 92.5 watt inverterstrobe power supply designed for use in fire and police emergency vehicles. It is available in 8,10, or 12 head versions that allow single power supply control of the vehicles entire strobe lighting system.

The twin-inverter design of the PS-Ultra-Pak-185 drives 8, 10, or 12 heads with 185 watts of pure strobe warning power! Four field-proven, highly effective strobe-warning patterns are standard. The PS-Ultra-Pak-185 offers multiple stereo pattern selections- the PS-Ultra-Pak-185 runs two different flash patterns at full power.

- Dual inverter microcontroller driven design.
- State-of-the-art high power MOSFET design.
- 64 pattern & selective switching combinations.
- Over-voltage/ absent flashtube protection.

Headlight Flasher

NEW! from SOUND OFF INC.™

The "TERMINATOR"

Now 1 Flasher Does It All!

The New "TERMINATOR"

Plugs Directly Into Ford OEM Harness!

- Headflasher Unit combines the 1.9 flash per minute or the 3.0 flashes per minute alternating and the patterns in the "Q" switch flasher in one flasher! You Decide!
- Easy installation
- Includes fuse and holder
- Small size only 2-1/2" x 2" x 3/8"
- 5 Year warranty
- 10-16 VDC Input
- Short circuit protection
- Reverse polarity protected with 10amp in-line Mini ATO Fuse
- Thermally protected - automatically shuts down if unit overheats
- Output: 55 watt load on each of 2 outputs
- Hi-Beam Override, disables flasher when hi-beams are activated
- Night Time Cutoff, disables flasher when low beams are activated if required by local regulations
- Less than 10mA standby current
- Fuse: Mini ATO 10 amp

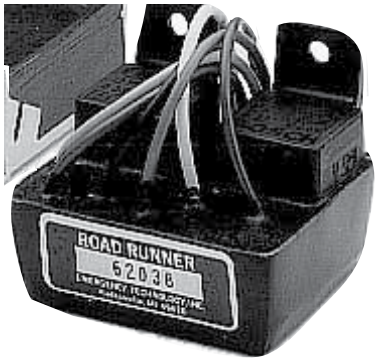
Headlight Flasher System

Postive & Negative Headlight Flasher

- Operates a 2 or 4 headlight system on most vehicles with a 12 VDC power source.
- 3 operating modes built into 1 flasher.
    1. Alternate (wig-wag) the headlights at 1.9 flashes per second.
    2. Alternate the headlights at 3.0 flashes per second.
    3. A varying flash that will continuously cycle through 3 patterns: alternating flash at 1.9 f.p.s, simultaneous flash at 3.0 f.p.s and a fast alternating flash at 3.0 f.p.s.
- Applies to both positive and ground side switched headlight systems.

Order No. FL-ETHFOO-SP
$44.95 ea.



ROAD RUNNER™

- Alternates, “wig-wags” headlights at 1.9 flashes per second
- Relay Driven

Order No. FL-ETRROO-P
$39.95 ea.

SELECT-A-PATTERN TECHNOLOGY

NEW!

ETHFSS-SP Solid State Headlight Flasher with Select-A-Pattern Technology

Replaces Solid State

- **POWER PULSE™**
- **ROAD RUNNER™**
- **Q Switch™**

Order No. FL-ETHFSS-SP
$44.95 ea.

- 5 user selectable flash patterns.
- Operates 2 or 4 headlight system on any vehicle with +9-30 Vdc Negative Ground.
- 100% Solid State

HeadLight Flasher Systems

FOREIGN VEHICLE FLASHER

- Alternates, “wig wags” headlights at 3.0 flashers per second
- Solid State Driven Relay
- Simplifies installation on most foreign vehicles and other vehicles with ground side switching including:

Call for specific applications

Order No. FL-ETPPFV-P
Foreign Vehicle Headlight Flasher

$41.95 ea.

Impala Plug-In Flasher™

- Plugs into connectors located at front of all police package Chevrolet Impalas 2000 and up
- Bracket holes line-up with mounting bolts under the vehicle’s hood

2000-2005 Impala

Order No. FL-ETHIMPO ..... **$87.95** ea.

2006-Up Impala

Order No. FL-ETHIMPO-06 ..... **$87.95** ea.

E.T.M. (Emergency Traffic Mover)

- Modulates headlights at 3.6 flashes per second
- 100% Solid State or Solid State Driven Relay
- Greatest conspicuity, U.S. Air Force School of Aviation Medicine, Dept. of Opthamology demonstrated 3.6 flashes per second as being the most conspicuous signal (fastest human response time)

Ground-Side Switched DRL Compatible Flasher™

- Installs in Ground Side Switched vehicles with DRL’s such as Chevrolet Blazer/S10, non-police package Impala, Monte Carlo, Saturn, Cavalier, Sebring and Avenger

Flashers

FEDERAL SIGNAL CORPORATION
Emergency Products

FL-FA3 General Purpose Flasher

No. FL-FA3

The model FL-FA3 is a compact, economical flasher proven in thousands of hours of field use to be a reliable unit for most flasher needs. The FL-FA3 alternately flashes two 10 amp light circuits with a flash rate of 90 flashes per minute. Velcro® strips are included for ease of mounting. This flasher is offered with a two year warranty- perfect for the user with a high rate of vehicle turnover.

Order No. FL-FA3 ..... **$19.95** ea.

No. FL-FHL2-SC

FL-FHL2-SC Compact Headlight/Grille

The FL-FHL2 is ideal for headlight or grille light flashing needs. The unit is compact, heat resistant, weatherproof. The electronic timing offers a consistent flash rate unaffected by changes in temperature, vehicle voltage, or current load. The FL-FHL2 can flash two 10 amp loads at a flash rate of 95 flashes per minute. The headlight flasher is disengaged when highbeams are activated.

	Qty.	
Order No. FL-FHL2-SC	1-5	**$44.95** ea.
	6+	**$42.95** ea.

Headlight Flashers

The new FL- 656101 headlight flasher sets a new standard in versatility and dependability. Built-in flash patterns include flash rates of 114fpm, 180fpm and a high-action random pattern. Easy installation for CVPI vehicles with plug-n-play connectors already attached. For other vehicles cut off the connectors and follow installation wiring instructions. The FL-656103 headlight flasher is a 100% solid-state design. Built-in flash patterns include flash rates of 114fpm, 156fpm and a high-action random pattern. Optimized for installation in Chevrolet Impalas (2000 and newer) equipped with the Police Package. The unit includes mounting bracket and plug-n-play connectors specifically for those vehicles.

The LEGEND™ LIGHTBAR

NEW

All Legend Lightbars contain an advanced microprocessor controller that provides 3 modes of operation, and is pre-programmed with 26 flash patterns (including SIGNALMASTER directional warning), 2 test modes, front/rear cut-off, intersection warning, and dimming.

- Low-profile, linear lightbar design offers front and rear cut-off and dimming.
- Ability to reconfigure the entire lightbar on the vehicle.
- ROC (Reliable Onboard Circuitry), eliminates approximately 85% of the potential failure points in a typical lightbar.
- New RS485 bus connection simplifies installation with only power, ground and snap-in RJ-style connections.
- The newly optimized Solaris™ LED lights maximize warning signals at 360-degrees and 90-degree off-axis.
- Built-in SignalMaster™ directional warning.
- Advanced microprocessor controller provides 3 modes of operation and a selection of new pre-programmed flash patterns and 2 test patterns.
- 5 year LED product warranty

LED Lightbar

NEW!

GALAXY
LED LIGHT BAR

Welcome to a New Dimension in LED Light Bar Technology

The GALAXY 48" Light Bar is the most advanced LED Light Bar on the market. A complete 360-degree lighting system with extremely low amperage draw, the GALAXY line uses a low profile design and is engineered to provide superior aerodynamics and greater fuel savings than other light bars.

Features:

- 911EP Signature Low Profile Design.
- Onboard Halogen Takedown Lights. 200 Watts (Using twin 110 Watt Modules).
- 110 Watts of Alley Light Power. (55 Watts per side), Integrated Flashing.
- SAE/Title 13 Class 1 - Meets and Exceeds Requirements.
- Minimum of 30 Programmed Flash Patterns, Configurable, Re-Programmable.
- Daytime and Nightime Cruise Lights.
- Modules can be interchanged to allow for various combinations of LED Colors.

Order No.
SW-ORION-S
$189.95 ea.

- Now available with colored lenses. Please specify color if preferred.
- Takedown and alley lights included.
- 48" H x 10.75" D x 2.25" H Weight 32 lbs.

Order No. LF-GAL48RB Red/Blue..... **$2679.95** ea.
Order No. LF-GAL48B Blue..... **$2995.95** ea.

The Orion™ Standard Switch Box

- Includes 4-position progressive slide switch and 4 computer-controlled momentary push buttons.
- Ability to turn progressive functions on and off.
- Computer-controlled, with 10 outputs giving full functionality of the GALAXY.
- Directional button has 4 different functions for directional control.
- Two 0.5 amp outputs for activating high-current relays and secondary devices.

Light Bars

NEW!

THE BLADE™

LOW-PROFILE LIGHTBAR

5 Year Warranty!

TOMAR's advanced design and cutting-edge innovation shines through once again with the introduction of The Blade™ Low-Profile Lightbar. The Blade™ will redefine the standard for high-performance Low-Profile Lightbars for years to come. Not only is The Blade™ one of the thinnest lightbars in the industry, it's also the brightest among all lightbars. Engineered with the latest LED technology, The Blade™ is revolutionary in its modular design allowing for unparalleled versatility.

- **Extreme performance in a package under 2" high**
- **Adjustable beam angle LED takedown and alley lights**
- **Integrated traffic direction feature**
- **Multiple user-programmable flash patterns**

Under 2 Inches High!

The low-profile design provides a stylish stealth look while maximizing fuel efficiency by reducing wind drag.

Super-High Power Takedowns & Alley Lights

Available with single or dual alley and take-down modules. Each single LED module exceeds the performance of a 35 watt halogen lamp.

- **EXTREME ENFORCER PACKAGE**
  49" Model with 8-12 LED modules front facing, 9-12 LED modules rear facing, 2 dual LED alley lights and 2 dual LED take down lights.

Super-LED™ Series Lightbars

WHELEN

SCANLOCK™

Only $2795.95

Edge Ultra Freedom™ Light Bar

A new all Linear-LED® lightbar featuring the next generation of ultra-bright, ultra wide angle LED technology in a warning package that rivals strobe in impact, but provides heavy-duty, long life operation with low current draw. All Ultra lightbars have the same modular construction and are made for rough treatment and long hours.

- 12 LED Linear Modules
- Duplex Linear20 and Linear12 Super-LED modules. Top level may be different color than bottom level with individual control of upper and lower levels.
- Includes 2 Halogen Alley Lights and 2 Halogen Takedown Lights (flashing).
- Clear outer lenses are standard, with color lenses available.
- Each group of four Super-LED lightheads are driven by an all electric module that provides proper input power and choice of flash patterns. You are assured of equal light intensity from each lighthead through a voltage range of 10-16 VDC.
- Scanlock™ allows you to scan through multiple flash patterns and lock in the desired pattern. Every pair of lights can have its own unique pattern.
- Five-year HDP® (Heavy-Duty Professional) warranty on LED's.
- Standard length: 50" (49.75")
- Size: 3-3/4" (95mm) H x 12" (30mm) W x 44 3/8" (113mm) or 49 3/4" (126mm)

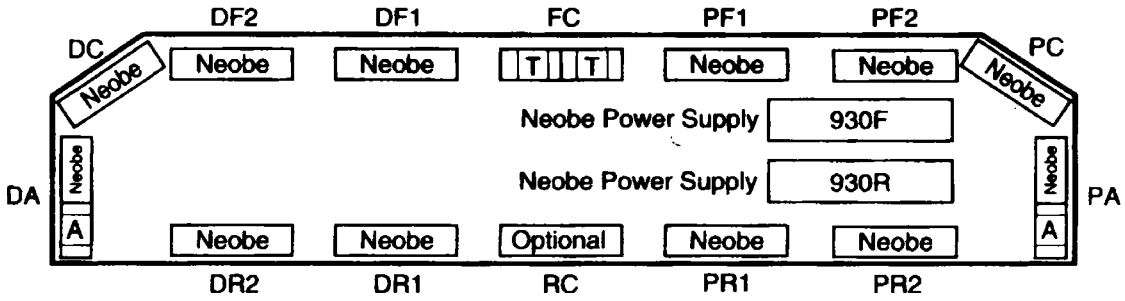
NEW AND IMPROVED

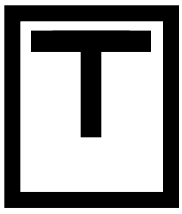
Light Bars

Neobe Lighting - **The Look of Neon with the Power of Strobe**

10-Year Warranty on Power Supplies

SPECIFICATIONS





The 950N HELIOBE™ Light bar is the most visible, durable strobe light system ever devised for public safety use. HELIOBE™ light bars use TOMAR'S NEOBE® technology that provides the look of neon with the power of strobe for a super high intensity glowing effect. HELIOBE™ light bars are extremely water resistant and the photometric intensity does not decrease at low temperatures. The 950N series now features user programmable power supplies for unparalleled versatility and improved flexibility.

950N Light Bar benefits:

- Extremely low amp draw – at only 14 amps the strobe 48" light bar draws less current than many similarly equipped LED light bars.
- In addition to the user-selectable warning patterns most bars feature a built-in traffic direction function. This allows the rear strobes to be operated independently in a LEFT, RIGHT OR CENTER OUT pattern.
- For the ultimate in flexibility and versatility, the 950N provides the ability to select from multiple flash patterns and flash rates.

Voltage and Amperage

12-28 VDC Draws 14.0 avg. @ 12.8 VDC (strobe only) – Add 2.5-A per 890 halogen lamp.

Size and Weight

4.75" H x (width varies) x 11.5 " W - 43lbs.

12 Head Neobe Light Bar

Neobe light bar with 12 Neobe heads, 2 take-down lights, 2 alley lights, 4 rear halogen flashers and mounting kit.

Edge® LFL Patriot Series Lightbar Features

- Sleek, aerodynamic profile, state-of-the-art optics. • Strobe, LED & Halogen models.
- LED modules feature new wide angle LEDs for increased performance.
- Soldered Linear strobe tubes for reliability/heavy-duty service.
- Strobe Power Supplies provide nine flash patterns w/ScanLock™.
- Optional halogen takedowns, halogen alley lights, LED flashers (up to 6 front & 6 rear).
- Optional LED Traffic Advisor w/2-wire control (doesn't require control head operation).
- New optional "Personality" module provides enhanced control and flexibility to the operation of all lamps. Contact your Adamson Industries® representative for details.
- Low "LC" current operation uses a small diameter external cable harness for operation with standard or low current switch controls or micro switches.
- Three standard lengths: 44", 48" and 54". (Custom lengths available).
- Factory pre-wired with 25' cable. (Optional passenger side cable exit).
- Extruded aluminum chassis provides superb strength and stability.
- Most models exceed SAE requirements.

Switch Controls

FEDERAL SIGNAL CORPORATION
Emergency Products

Only $109.95

SW-SW300 & SW-SW200 Switch Modules

Model SW-SW300 has six lighted single-pole, single-throw (SPST) rocker switches for control of virtually any light function. Switch #1 controls rotating lights, and comes prewired to a 40 amp relay and self-resetting circuit breaker. Switches #2-6 have 20 amp capability and are fused on a 20 amp circuit.

The Model SW-SW200, for those with only four function needs, incorporates all the advantages of the SW-SW300 (40 amp relay, circuit breaker, blade fuses, easy installation) with four lighted single-pole, single-throw rocker switches. Both models include police market legends.

Order No. SW-SW300 ..... $134.95 ea.
Order No. SW-SW200 ..... $109.95 ea.
Order No. SW-SW400SS ..... $169.95 ea.

Replacement Switch
Order No. SW-1223B5A ..... $8.95 ea.

Bail Bracket
Order No. SW-SWBK1 ..... $8.95 ea.

SW-SW400SS & SW-SW400SSJ Switch Controls

Models SW-SW400SS and SW-SW400SSJ provide switching control for seven separate lighting or auxiliary functions. Both units have a 4-position slide switch that allows a progressive sequence with positive action and single control of primary and secondary functions. The first position of the slide switch is the OFF position. Positions 2 and 4 each have a 20 amp relay and are fused at 20 amp. Position 3 has a 40 amp relay and self-resetting 40 amp circuit breaker. Each model includes plastic legend labels that can be easily popped out and replaced when different control functions are desired.

The Model SW-SW400SS has four lighted single pole, single throw, rocker switches. Model SW-SW400SSJ has three lighted single pole, single throw rocker switches and one momentary center off rocker switch. This momentary switch is especially effective when jogging the SmartVector "smart" pods in the alley, takedown, or searchlight modes.

05.8040.000 High/Low Amperage Draw Light Control Box

First two switches on this box are wired to 40 amp relays and 40 amp circuit breakers for high-amperage draw applications. The six remaining switches have 20 amp capability and are individually fused. All wiring for installation is provided. Includes bail mount.

Order No. SW-05.8040 ..... $169.95 ea.

Switches and Control Centers

A wide variety of switches and control centers are available to match your application.

- Low profile, extruded aluminum housing, black finish.
- Adjustable bail brackets.
- Legend tabs included.
- Units with slide switches have LED "on" indicator above slide switch positions and push buttons.
- Backlit legend windows above push-on/push-off and momentary switches.

SW-PCCS9NP

SW-PCCS9NP

Low current switch center. For use with relay matrix Edge® lightbars. Four position slide switch, five push-on/push-off switches and a momentary switch.
Size: 2" H x 6-1/8" W x 3-5/8" D. Weight: 1 lb., 12 oz.
(Replaces PCC59N & PCC59NI)

Order No. SW-PCCS9NP ..... **Quantity:** 1-9 $189.95 ea. 10+ $179.95 ea.

SW-PCCS9R

SW-PCCS9R

High current switch center. Four position slide switch and five push-on/push-off switches and one momentary switch. Built-in 30 amp relays. Connects to most rotating or strobe lightbars without the use of separately mounted relays and relay boxes.
Size: 2" H x 6-1/8: W x 7-1/4" D.
Weight: 1 lb., 12 oz.
SW-PCCS9R1: same as PCCS9R, except six push-on/push-off buttons.
The sixth push-on/off button is low current only. (Specify PCCS9R or PCCS9RI)

Qty.

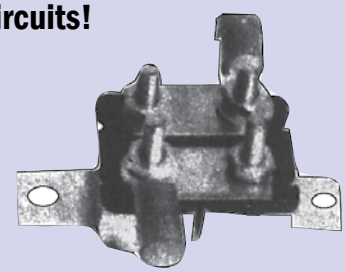
1-5 $19.95 ea.

6+ $17.95 ea.



A 100 Amp Circuit Breaker... Ideal for mounting near the battery for protection of power to system applications.

HI-Amp Manual Reset Circuit Breakers

These high current thermal circuit breakers are designed to protect primary supply cables where the current requirements can run from 40-150 Amps. These circuit protection devices provide an excellent method of protecting lightbars, sirens, inverters, generators and other sensitive equipment often found unprotected. A visual trip indicator eliminates the need to manually check for power conditions, and provides a convenient method of tripping the circuit for routine maintenance inspections. Operating temperatures for these circuit protectors are from: 25 degrees to +180 degrees Fahrenheit. Terminal connections are 1/4" x 28 threaded studs.

PA300 Full-Featured Siren

- Field-tested and proven worldwide for years, more agencies use the PA300 than any other full-featured siren.
- All models include standard wail, yelp, air horn tones and peak and hold. Select models have hi/lo or priority tone
- 100-watt output meets the national Class A standard when used with a Federal speaker.
- High reliability and performance is achieved by means of integrated circuits and surface mount technology.
- User selectable switching for horn ring tap, manual horn/siren, horn ring press/hold, and radio rebroadcast.
- Fused circuit failure protection, front panel PA volume control, and built-in noise cancelling microphone available.

Order No. **SR-PA300** ..... **Qty:** 1-5 **$249.95** ea.
6+ **$239.95** ea.

SR-UTMD

TouchMaster™ Delta (Replaces PA400SS)

- Economical siren and light control in one compact unit.
- Six auxiliary switches configurable in the field as push on, push off, or momentary switches.
- Four-position slide-switch with progressive LED indicators allows simple selection of common siren and light functions.
- Highly reliable integrated circuits and silicon output transistors assure long life in a variety of environments.
- Standard siren tones include: wail, yelp, priority, and air-horn as well as TAP II feature, PA and radio rebroadcast.
- Wired-in noise cancelling microphone eliminates PA squeal.
- Drives one or two 100-watt speakers for Class A sound.
- Requires optional microphone SR-MNCT below.

Order No. **SR-UTMD** ..... **$489.95** ea.
SR-MNCT Microphone ..... **$49.95** ea.

SmartSiren® with SignalMaster Control

- Electronic siren, emergency warning light control and SignalMaster traffic advisory switching all in one model!
- Separate amplifier/relay unit connected via RJ-11 cable to super slim control head for “air bag wise” installation.
- State-of-the-art microprocessor technology provides high performance and versatility; user can configure in field.
- Siren functions include wail, yelp, hi/lo, manual, horn ring transfer, radio rebroadcast, TAP II, and PA; power versatility (58-, 100-, or 200-watt), meets Class A with Federal speaker.
- Control lights and other auxiliary functions; seven signaling patterns and eight relay outputs are available.

Order No. **SR-SS2000SM** ..... **$959.95** ea.
SR-RMK Microphone Extension ..... **$64.95** ea.
SR-MNCT Microphone ..... **$49.95** ea.

SmartSiren®

- Combination electronic siren and emergency light control.
- Amplifier/relay unit separate from super slim control head helps make “air bag wise” installation.
- Unique microprocessor technology allows user to configure unit in the field by use of rubberized keypad.
- Same standard siren functions and performance as SmartSiren with SignalMaster control.
- Replaceable legends on control head keypad identify functions.
- Controls lights and other auxiliary functions with eight relay outputs.

Order No. **SR-SS2000SS** ..... **$849.95** ea.
SR-RMK Microphone Extension ..... **$64.95** ea.
SR-MNCT Microphone ..... **$49.95** ea.

Siren/Light Control

Only $379.95

PA640 Siren/Light Control

The PA640 is a precision built, efficient and economical full-featured electronic siren and light control system. The siren provide wail, yelp, and priority or high-low siren tones as well as the horn ring transfer Tap II feature, public address (PA), radio rebroadcast and an air horn sound.

On-board relays in the unit allow centralized control and wiring of primary, secondary, alley lights, and auxiliary circuits with a lighted rubberized membrane switch assembly. A convenient four position Mode slide switch allows simplified and rapid selection of most common siren and lighting functions and changes the horn ring function according to provide the Tap II feature.

A noise canceling microphone is provided. It provides high quality voice reproduction without feedback squeal. The microphone push-to-talk switch overrides any siren sound for instant Public address use. PA volume is adjustable by means of a front panel VOLUME control.

The PA640 is designed to drive one 11-ohm impedance high power (100W) speaker. The horn ring transfer feature allows the driver to change the siren sound from wail to yelp to priority high-low to wail... via the vehicle's horn ring. This features provides especially effective traffic clearing capability. Each slide switch position can be individually programmed for siren dependency, transfer of the horn ring, and selection of the no siren tone to either airhorn or peak and hold.

To reduce standby power consumption the power output audio and pre-amplifiers are not powered when not in use.

Dimensions: (HWD)..... 2.75" x 6.63" x 8.00"
Current Ratings for Relays:

- Total Output..... 80A Combined Total all Relays
- Slide Switch Options:
  - Mode 1 ..... 30A
  - Mode 2 ..... 30A
  - Mode 3 ..... 30A per individual
  - ..... 40A Total Mode 3
- Pushbutton Switch Outputs:
  - A-F..... 20A each

Other special features include:

- Programmable rubberized pushbuttons with inserts. Each pushbutton can be programmed to be either: inactive, momentary, push on/push off, 8 second timer, simultaneous, or alternate flasher. The flash rate is selectable, either 75 or 120 flashes per minute. Relay pushbuttons can be attached to slide switch positions 1, 2 or 3.
- The control panel is illuminated with non-glare backlighting.
- Park-Siren Deactivator can deactivate siren tones when the vehicle is shifted into park.
- Siren tones can be programmed to be dependent or independent of the slide switch.
- An electronic beeper chirps upon function selection. The beeper is dip switch selectable to chirp every 10 seconds if a function is active.
- The siren tones can be selected by dip switch to cut-out or coast down when deactivated.

NEW...CenCom Gold™

Control Head

The Evolution of the Siren and Light Control System for Law Enforcement and Emergency Professionals!

Designed & Manufactured in the U.S.A.

When technology takes a step up, so do the engineers at Whelen Engineering Company! CenCom Gold provides the road-test performance of the original CenCom and adds the features you've been looking for.

Configuration programming is easier than ever, with “drag and drop” feature and more flexibility to configure lights, traffic arrows and siren function controls to your specific needs.

The single Amplifier/Relay Module (ARM) provides ease of access to fuses and connectors without removing the cover.

Heavy-duty, two position Molex® power connector is designed to handle rough treatment without damage or accidental disengagement. The system handles one or two 100-watt speakers.

CenCom Gold features an easily programmable system with a control head that includes a four-position slide switch (one 40-amp and two 20-amp outputs) and 18 programmable back-lighted push buttons with bright LED on/off indicators. State-of-the-art membrane switches provide tactile feedback of activation and are equipped with a solid rubber overlay for moisture resistance.

The unidirectional microphone with plug-in connector is standard. A 20-foot microphone extension cable is available as an option

Features:

- Control your lights, traffic arrow and siren functions from a single keypad.
- Easy to configure using Windows® XP application program (included). Easy to operate including true “hands free” on/off light and siren operation
- USB Port in Amplifier/Relay Module (ARM) provides easy access for Programming. (Control head does not need to be connected for programming).
- Bright red LED indicators are clearly visible, even in bright sun.
- On/Off, Momentary, Eight second timer and Security Double-Tap eight second timer can be programmed through seven switches individually.
- Control Panel can be easily surface mounted via Velcro® or U-bracket, standard. Semi-flush mounting trim plate is optional.
- Back-lighted push buttons include 136 standard function labels to choose from.
- Aluminum housed Amplifier/Relay Module is field serviceable with easy to access external fuses.
- Operate one or two 100-watt speakers.
- Single eight-conductor, 22guage Cable connects Control Head to Amplifier/Relay Module and provides heavy-duty service unlike telephone style cables.
- 20’ power and input/output cable with connectors, standard.
- 2-year warranty on the system. 5-year warranty on the amplifier.

Order No. SR-SR-CCSRN2 ..... **$822.95** ea.

Remote Microphone-Controlled Siren

Only $339.95

Model SR-650001 Pictured

FEDERAL SIGNAL CORPORATION
Emergency Products

Federal Signal's innovative 650 series siren allows for all sound and light functions to be enabled by rubberized push buttons located on the unit's compact (4.5"L x 2"W x 1"H) and easy to use microphone control head. The advanced microprocessor based amplifier exemplifies Federal Signal's commitment to remain today's unmatched leader in the field of siren technology.

ADVANCED AMPLIFIER DESIGN

The 650 series remote siren provides 100-watt speaker output and can operate from any 12-volt negative ground vehicle electrical system. It is short circuit protected and can be powered through an installed power distribution center (PDC), or directly from the vehicle's battery. Reliability and efficiency is maximized by the use of advanced microprocessor based technology. The 650 series amplifier comes equipped with eight 10-amp light or auxiliary relay connections, is horn ring control ready, and has it's own bracket mount to allow for quick and easy removal or replacement. Also provided is a 16.5" wire harness and all necessary hardware.

COMPACT MICROPHONE CONTROLLER

All siren and light functions are located on the 650 series microphone. Ten rubberized push buttons control three progressive "slide switch-like" positions, on/off, PA, Air Horn, Peak-and-Hold, tone switching, and up to 30 amps of auxiliary power. The microphone controller "snaps" into a small plastic remote junction box where PA volume (and a secondary on-off switch) are located, then runs directly to the 650 series amplifier. Both of these connections are plug-and-play via eight conductor telephone jacks. An innovative microphone holder that can rotate and pivot to almost any angle allows for a wide variety of installation possibilities.

Order No. SR-650001

Only $179.95

Specifications:

Size: **Control Head** 2 ¼”H x 3”W x 1 ¾”D
Amplifier Box 2”H x 6”W x 5 ¼”D

Weight: 3.5 lbs.
Output: 100Watts
Voltage: 10V –16V DC
Frequency: 675-1633Hz
Amp Draw: 8 Amps.

The LCS653 is ideal for vehicles with limited mounting space but requires the flexibility to control lighting or other function. It features a 3-position rocker switch that gives you Yelp and Wail tones while offering Manual siren control and Air horn override in the Standby mode. The momentary rocker switch provides Phaser override in the Yelp mode. This compact control panel can be easily mounted under or on the dash panel. The LCS653 is designed to operate one 100 watt speaker. Ships complete with wire harness w/positive locking connector, hardware and instructions.

100-Watt electronic mini-siren with intersection clearing feature

Order No. SR-MS4000 ..... **$129.95** ea.

100-Watt electronic undercover mini-siren with remote switches and intersection clearing feature

Order No. SR-MS4000U ..... **$144.95** ea.

MS4000 Mini-Siren

Wail, Yelp, Priority, Manual and Air Horn are all standard on the MS4000. Two rocker switches control all the siren functions. One switch controls AIR HORN / MANUAL, and the other controls WAIL, YELP. The AIR HORN / MANUAL switch rests in the neutral (center) position and activates a function when momentarily placed into the up or down position. The WAIL / YELP switch is a three-position switch with the center position being neutral.

A new, built-in intersection clearing feature adds effective traffic management capability at potentially hazardous crossing. When the MS4000 is activated and in the WAIL position, depressing the momentary switch to the MANUAL position produces an eight-second YELP tone. When the MS4000 is activated and in the YELP position, depressing the momentary switch to the MANUAL position produces an eight-second Priority tone.

Undercover Consoles

SEEN but Unseen...
KOVERT KONSOLE

A newly designed undercover console is now available!!! A simulated wood grained beverage holder lid section lifts to reveal:

The Kovert Console

- Constructed from heavy gage steel with baked black vinyl enamel textured finish
- Tamperproof!!! Complete protection yet conceals communications!
- Re-designed larger cup holder for mugs
- Cover section holds your microphone so it's conveniently located hidden inside...
- Quickly installed yet easy to transfer
- Main body section easily mounts your radio head and a small or remote siren. It will accept nearly all radio heads and some of the newer mobile vehicular adapters for portable radios!!!!

Emergency Products

The Speaker That Fits!
Just 2-5/8" Thick!
$159.95 ea.

DynaMax Compact Speaker

The most revolutionary compact speaker on the market today! It's unique patented design allows it to easily fit behind the grille of most any emergency vehicle.

Thin and Fit

Just 2-5/8" deep and weighing only 5 lbs., the DynaMax speaker is the slimmest, lightest 100-watt speaker available. It's ultra-compact size allows it to be installed in many locations on emergency vehicles, including behind the grille and on top of or behind the bumper, thereby projecting sound forward and reducing passenger compartment noise.

Durable, Reliable & Powerful

Utilizing ground-breaking technology, this speaker is fully encapsulated - no terminals are exposed. It's solid aluminum construction incorporates the driver and projector into the housing allowing the unit to operate cooler and run more efficiently than conventional speakers.

Easy to Install

Choose a model with a vehicle-specific bracket and the speaker can be mounted within minutes to the vehicle. A generic bail bracket model is available for mounting onto specialty vehicles.

Approvals

Meets CCR, Title 13, Class A and SAEJ1849EVS3 specifications when matched with any Federal Signal brand siren.

ANTI-THEFT DEVICE

Tremco Police Anti-Theft

INTEGRATED SYSTEM

Now Police can **leave their cruisers running unattended** for emergency situations.

Allows emergency lighting, radios, heaters, air conditioners, and defrosters to operate while maintaining needed battery current.

Gives Police Officers **more security** at the scene of an accident or when the cruiser is occupied by prisoners/passengers while the engine and accessories are running.

Inexpensive, fast and easy to use with our patented camouflaged system.

Easy installation in about ten minutes.

It is always a liability for an agency to leave a cruiser running unattended.

The Tremco Police Package Anti-Theft System is sold only to responsible state and local police departments (not available to the general public).

Tremco Products Company solved the problem of police vehicle theft when the engine is left running with our anti-theft system police package. It is 100% reliable, convenient, and inexpensive. When personnel pull up to an emergency situation, they place the shifter into "park". With the Tremco Anti-Theft System it will automatically activate, protecting the vehicle from theft. A would-be thief cannot pull the shifter out of the "park" position. When personnel return to the vehicle, they deactivate the system and are on their way in a second.

This system also gives 24 hour protection for your vehicles when not in service. If the vehicle is not in use and the keylock is destroyed, the shifter will not release.

For the past 15 years, this police tool has protected thousands of agency vehicles from the liability of chases, fatalities, damage to vehicles, and loss of weapons.

Our unique camouflage system blends in with the surrounding components for convenient everyday use. And for all police package vehicles, the system plugs into existing harnesses. No cutting or splicing of wires which means quick, safe installation which will not void existing vehicle manufacturer warranties.

Put this police tool in your vehicles specifications today!

Available for all popular makes and models of Police Vehicles

Power Tamer

Made by Copeland Engineering

Stops Battery Drain With Convenient Programmable Timer

Now you can control the amount of battery drain with a convenient programmable timer. Just set the Power Tamer to shut off your auxiliary equipment such as radios, computers and control panels at the time you specify (from 15 minutes to 31 hours). And that's it! Your auxiliary equipment will cut off at the same time after you turn off your vehicle, until you change the timer. When you're ready to restart your vehicle there's nothing to reconnect. No hood to lift, no button to push! Plus, its digital design will give you years of trouble free service. Years of testing over a wide range of temperature and voltage ranges insures reliability and allows it to be transferred to future vehicles.

Order No. SW-PT1 **Qty:** 1-11 $79.95 ea. 12-23 $69.95 ea. 24+ $59.95 ea.

PriorityStart!® by BLI

1 Year Warranty!

Stops Battery Drain Automatically

Computerized PriorityStart!® prevents dead batteries by monitoring battery voltage. If you leave your cruiser's headlights or radio on when the engine isn't running, don't worry. PriorityStart!® automatically cuts off the battery drain when the battery voltage drops below a certain level. This ensures ample charge to get your vehicle started, and when you're ready to go, it automatically reconnects so that you can be on your way. No button to push!

Mobil Patrol Light

This SLI hand held spotlight has earned the reputation as "The Professional" light because of it's virtually indestructible design and construction, great versatility and outstanding performance.

The ruggedly built light features a waterproof one-piece molded neoprene housing, a heavy duty coil cord and a 110,000 candle power sealed beam bulb (other bulbs optional.) It has a convenient pistol grip with a momentary action trigger switch that eliminates the possibility of seat or floor burn and allows for manual flashing.

While originally designed for law enforcement agencies, the Mobile Patrol Light has become popular for fire and emergency, industrial inspection, security applications, sports boating, varment hunting and other personal uses.

Versatile, durable, dependable. It's "The Professional" portable light!

Highlights:

- 10,000 candlepower
- Virtually indestructible construction.
- Runs on vehicle or portable power
- Red & Blue slip-on lenses
- Lightweight
- Weather resistant

Gooseneck Lamps

- Flexible, durable gooseneck
- High quality construction
- Crisp, bright white light
- Low profile/sleek design
- Available in 12" and 18"

Littlite® sleek, low profile gooseneck lamps efficiently produce light in a concentrated area, and can easily be aimed exactly where you need it. Using halogen technology, the high intensity lamp emits crisp, bright white light in a tightly controlled pattern for use in any task involving accurate, close or detailed work. A colored red filter easily slides into place over the lamp for night vision use. There's a perfect spot in any police, fire, ambulance, emergency, or utility vehicle for a Littlite gooseneck lamp.

Made of sturdy metal and finished in a durable black, baked enamel, all Littlite lamps and accessories are designed and constructed to meet the most demanding needs. The stylish finned hood is uniquely designed to dissipate heat and extend surface life.

Equipment Consoles

MT-SRC7 / MT-SRC9 SwitchRite

The MT-SRC7 is a small 7-inch console popular for use in bench seat vehicles and pickup trucks, where limited space is available or undercover vehicle applications. The MT-SRC7 is capable of holding two (2) pieces of equipment and has mounting holes for a map light. Can be used with optional laptop mounts for between the seat configurations. The MT-SRC9, 9-inch console is also available (not shown), which holds (2) pieces of equipment. Console includes face plates, floor plate & leg kit.

Order No. MT-SRC7 ..... See note below* ..... $184.95 ea.

Order No. MT-SRC9 (Not Shown) See note below* ..... $189.95 ea.

Please specify vehicle when ordering.

MT-SRC11S SwitchRite

The MT-SRC11S is a mid-sized console - popular for use, both in between the seat configurations for full airbag compatibility and pickup trucks or Suburbans with bench seats where limited space is available. The MT-SRC11S is capable of holding three (3) pieces of equipment and has mounting holes for a map light. An optional armrest can be added to the MT-SRC11S console. The console is sloped from front to rear. Console includes face plates, floor plate & leg kit.

Order No. MT-SRC11S ..... See note below* ..... $199.95 ea.

Please specify vehicle when ordering.

MT-SRC14RS SwitchRite

Easy to install, this 14-inch console features a sloped profile from front to rear. This shape offers the ability to provide better visibility of equipment display functions, yet maintaining a functional equipment platform. The sloped shape maintains full airbag compatibility for the modern police vehicle and allows the addition of an optional laptop mount. New equipment faceplates can be ordered, as your individual needs change. Holds up to (4) pieces of equipment. Console includes face plates, floor plate & leg kit.

Order No. MT-SRC14RS ..... See note below* ..... $199.95 ea.

Please specify vehicle when ordering.

MT-SRC14FS SwitchRite

The MT-SRC14FS is a 14-inch console designed to fit between the seat providing full airbag compatibility. The MT-SRC14FS is capable of holding four (4) pieces of equipment or three pieces and a cup holder. The MT-SRC14FS slopes down from rear to front, providing room for taller equipment at the rear. Mounting holes for attaching a map light are pre-installed. An optional armrest can be added to the MT-SRC14FS series consoles. Laptop mounts are also available to coincide with all 14-inch consoles. Console includes face plates, floor plate & leg kit.

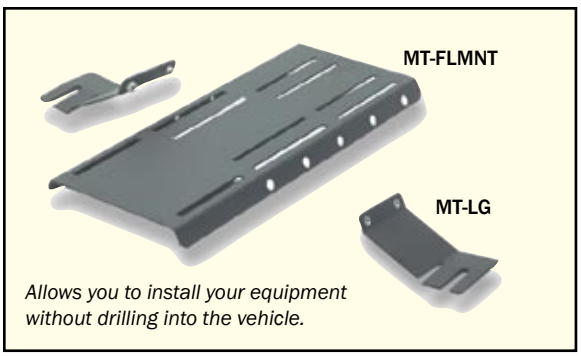
Order No. MT-SRC14FS ..... See note below* ..... $199.95 ea.

Please specify vehicle when ordering.

* **For Correct Face Plates, Please Specify Radio, Siren, Switch Panel Brand Name, and Part No. When Ordering**

Additional Faceplates ..... $24.95 ea.

Equipment Consoles



MT-SRC14R SwitchRite

The MT-SRC14R is the main stream console most popular today. The flat shape allows for mounting most equipment with ease and offers good ergonomics for the vehicle operator and/or passenger. Like our other 14-inch consoles ease of installation and equipment maintenance makes the Switchrite console a popular choice. The MT-SRC14R is also fully airbag compatible. Holds up to (4) pieces of equipment. Console includes face plates, floor plate & leg kit.

Order No. MT-SRC14R ..... **$199.95** ea.

See note below*

Please specify vehicle when ordering.

MT-SRCSUV SwitchRite

This console is specifically designed to accommodate the larger sport utility vehicles such as the Tahoe, Suburban and Expedition. The MT-SRCSUV is an 18-inch sloped - front to rear - console offering the ability to install 5 to 6 pieces of equipment. The console includes a side compartment providing storage space for clipboards and two smaller pockets to accommodate the likes of flashlights and portable radios. The MT-SRCSUV design allows for easy equipment operation by both driver and passenger. Fully airbag compatible, the MT-SRCSUV can also be used with an optional laptop mount. Mounting holes for an optional map light are pre-installed. Console includes face plates, floor plate & leg kit.

Order No. MT-SRCSUV ..... **$259.95** ea.

See note below*

Please specify vehicle when ordering.

MT-SRC18 SwitchRite

This console offers the same features as the MT-SRC14R except offering the ability to install more equipment. Also airbag compatible, the MT-SRC18 provides a flat mounting surface with the ability of adding many options available for the other sized consoles. The MT-SRC18 utilizes the same mounting platform as other smaller consoles can be utilized with a laptop mount in most vehicles not requiring a behind the seat safety screen. Console includes face plates, floor plate & leg kit.

Order No. MT-SRC18 ..... **$219.95** ea.

See note below*

Please specify vehicle when ordering.

* **For Correct Face Plates, Please Specify Radio, Siren, Switch Panel Brand Name, and Part No. When Ordering**

Console Floor Plate & Leg Kit (required w/all MT-LT5200 & MT-LT5100 Lap-Top Mounts)

The standard mounting platform for all consoles and laptop mounts is a 10-gauge plate that incorporates slots for easy mounting and positioning of equipment. The plate utilizes a leg kit that is specific to each vehicle model type. The plate can be used for many vehicles, as only the leg kit would need to be changed. This format provides the ability to utilize a console and/or laptop mount in any vehicle without having to buy new for every new vehicle.

Lap Top Mounts

The Console Side Mount is an innovative space saving mounting solution for utilizing a computer and console in a police vehicle. The Console Side Mount will mount either standard or ruggedized notebook computers or two-piece computing systems such as the Data 911, Motorola 520, Xplore Technology, MicroSlate, Kontron, Litton and more in the Crown Victoria and Impala.

CONSOLE SIDE MOUNT WORKS WITH:

Cable-Dock® securing system - mounting all brands of notebook computers. Display cradles for two-piece computing systems such as Data 911, Motorola 520, Xplore, MicroSlate, Kronton, Litton and more.

THE CONSOLE SIDE MOUNT WILL:

- Optimize Vehicle Space
- Easy To Install
- Store Against Dash
- Improve Access to Controls
- Help Focus Attention Forward
- Provide Glance-Over Viewing

Vehicle Console Side Mounts are Available for Ford Crown Victoria, Chevy Impala & Chevy Tahoe

Computer Screen/ Keyboard Rock Over Mount

Cable-Dock® Desktop

The Cable-Dock® is Jotto Desks premium desktop and we feel the best way to secure your investment in the rough, mobile environment. Our field proven, mechanical lockdown system for securing a notebook, pen or tablet-based computer uses two thin, nylon-coated aircraft cables, that are spring tensioned and attached to latches underneath the desktop. Each latch can be adjusted to place the cable where they will not interfere with computer access or components. The cable reaches up and over the computer providing a firm and full grip, snugging the computer down onto the specialized rubber shock pads on the desktop surface. These six (6) rubber shock pads lift the computer off the desktop providing air circulation to aid in cooling the computer and provide shock absorption.

Comes with Laptop Computer Mounts Above

Each Cable-Dock® desktop includes:

1. Latches (2)
2. Tension Adjust (2)
3. Spring (2)
4. Cable (2)
5. Cable Release
6. Shock Pads (6)
7. Mounting Plate (1)
8. Ratchet Handle (1)

Gun Mounts

Eight Different ELS Rack Models

Selection: The **ELS Model Series** is available in eight basic models (see below), six mounting configurations and two choices of key-lock overrides. All models are easily installed to accommodate vehicles with varying interior set-ups.

Safety and Security: **The ELS Model Series'** convenient ceiling mountings offer safer out-of-sight storage for weapons — increases speed, efficiency and easy access for "quick" removal. Allows adjustable positioning.

ALL BIG SKY RACKS WEAPONS MOUNT SYSTEMS ARE DUAL AIR BAG FRIENDLY.

The ELS Models Available:

The ELS Series comes in eight basic rack models, accommodating most commonly used law enforcement weapons. All rack models can be mounted in one of six mounting configurations, as determined by the vehicle's interior set-up: Partitions with roll bars, partitions without roll bars (solid and mesh), flat-surface mounting (i.e., trunk lid, S.W.A.T. units), vertical mounting, shelf mounting or separate purchase of a UCB (a telescoping "Under Cover Bar)") for those vehicles having no partitions.

All ELS models are fully adjustable for proper weapon seating, and are attached with specially constructed mounting hardware, which allows for quick and easy installation.

The locking device assembly provided with your order will be determined by your specified weapon of choice. See special instructions under "Mounting Options" for specification guidelines. Handcuff key standard, **request straight key.**

Model options shown:

Order No. MT-ELS-210 **$199.95** ea.
Electric locking mount for most police model pump action shotguns. Features patented standard trigger guard for vehicle occupant safety. Shown with a model Remington 870® shotgun.

Weapon Mounts

TUFLOC® OVERHEAD WEAPON MOUNTS

Each rack provides secure storage and quick access to your weapons. These high-strength steel racks are powder-coated with a black finish and each is padded for weapon protection and rattle-free performance.
The Overhead Mounted Weapon Racks give plenty of headroom for the driver and passengers. The rack is easily secured to a roll bar using the standard mounting kit (See photo #1). The rack can also be mounted to security screens (See photo #2) or to vehicles with no partitions using Tufloc's universal mount (See photo #3).
Weapons can be stored in 4 different positions. Most weapons can be stored with the muzzle facing the driver side or passenger side, with the stock parallel to the ceiling, or in a hanging position. Each rack allows the user to choose the preferred position.

1. Roll Bar Mount
(**Specify weapon and vehicle**)
Order No. MT-TLRB
$219.95 ea.

Transport Seats

NEW!

PRO-STRAINT™

The New Prisoner Restraint System and Safety Seat

Advantages of the new Pro-Straint seat:

The Seat

- Eliminates downtime searching for contraband and weapons.
- Washes off easily.
- Additional leg room over conventional and existing hard seats.
- Longer useful life.
- Immobilizes prisoner's upper body in full view of the arresting officer.
- Secures the prisoner upright and prevents him from being thrown forward during transport.
- Can be administered on the prisoner while the arresting officer is standing outside the car.
- Uses factory seatbelts.

U.S. Patent # 4,925,246.
Other U.S. and foreign patents pending.

A Breakthrough In Law Enforcement Equipment

OPERATING INSTRUCTIONS

**Please note manufacture has made changes to the seatbelts.*

Photo 1

Step #1: If you are on the drivers side of the car, grab the belt assembly as shown in photo #1. Pull the assembly out and forward as shown in photo #2, with your right hand pulling the excess belt material all the way out until you hear a "click". This step is critical because when you hear the "click", you have then engaged the ratcheting mechanism in the seat belt retractor, which will then prevent the prisoner from moving when he is strapped in. If you fail to hear the "click", you have not engaged the system.

Photo 2

Step #2: While still holding the slack material with your right hand, grab the black handle with your left hand as shown in photo #3 and insert the seat belt tip into the locking mechanism as shown in photo #4 and then release the slack belt material with your right hand and pull the black handle to separate the black handle from the seat belt lock (photo #5). This will then allow the belt to tighten against the prisoner's upper torso, and if the ratcheting system has been properly engaged as outlined above, then each time the prisoner moves, the belt will automatically tighten against his body making him completely immobile. At this point, you can then slide the black handle up towards the retractor away from the prisoner and leave it there. When you are ready to release the prisoner, release the seat belt like normal. When finished, re-insert the belt into the black handle for storage (photo #6) ready for the next use (photo #7).

Photo 3

Note: If you are on the passenger side of the car, use the opposite hands that are described and follow the same series of instructions.

Partitions by Setina

Setina Manufacturing Company

The designers and original patent holders of police vehicle partitions, is known for its high quality Police Vehicle Equipment. We are proud to be the leader in the industry for nearly 35 years. Setina offers an unmatched reputation for quality, a history of innovation, and a record of outstanding reliability. Setina has set the standard in the industry — Often Copied, Never Equalled.

The Setina Difference

- Setina "Bodyguard" Partitions are professionally designed for maximum strength and easy installation.
- Setina's superior mounting systems are engineered to attach to the strongest points of the vehicle.
- To ensure the integrity of the installation, Setina does not use a universal or clamp style mounting system.
- All "Bodyguard" Partitions have the same heavy duty roll bar type framework, with your choice of several window options.
- Heavy duty framework strengthens the center pillar door posts, and also the top between the center posts.
- Unique, curved, space-saver design follows the contour of the seat for maximum driver and passenger leg room.
- The Lexan MR 5000® used for windows is coated, scratch-resistant and guaranteed for a period of five years by the manufacturer against abrasion, coating failure and breakage.
- Completely transferable to most American cars with only a minor mounting bracket change.

Optional Model No. PT-5/8-S

Bodyguard Fold-Down Partition

With a touch of the lever the window flips up into the locked position, ready to transport prisoners. The unique "Bodyguard" Model #5-S is the low-profile partition of the 90's. Excellent for surveillance or unmarked cars.

U.S PATENT #07/442,948

Order No. PT-5-S ..... **$489.95** ea.

Please specify Make, Model and Year of Vehicle When Ordering.

Due to size, additional freight charges apply.

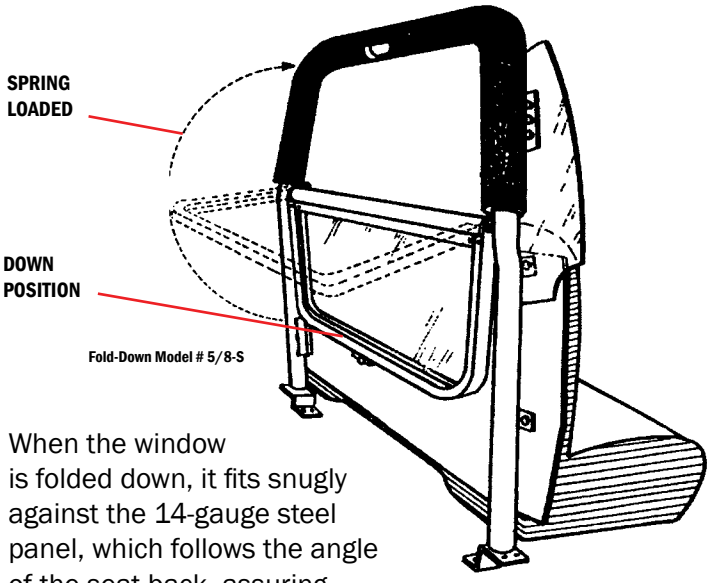
Bodyguard Model PT-5/8-S Fold-Down Partition

Model PT-5/8 has driver's side of Lexan MR 5000®. Passenger's side of 11-gauge, vinyl-coated, expanded metal screen with 1-1/2" x 3/4" diamond openings.

US. PATENT #07/442,948

Order No. PT-5/8-S ..... **$499.95** ea.

Please specify Make, Model and Year of Vehicle When Ordering.



When the window is folded down, it fits snugly against the 14-gauge steel panel, which follows the angle of the seat back, assuring comfort for rear seat passengers.

Stationary Partitions by Setina

Sliding Partitions by Setina

The Bodyguard PT-9-S

Self-Lifting and Self-Locking Vertical Sliding Center-Section

- Curved 3-piece Lexan® vertical sliding center section 1/4" thickness, with 12-1/2" x 27" opening, two stationary side windows 12" high x 8" wide.
- Heavy duty double extruded aluminum slide tracks with inserted pile lined channeling to prevent rattling of glass. Extruded aluminum 1-1/8" x 1-7/8".
- Self-lifting, self-locking, spring-loaded Lexan® center section
- Glass can be raised or lowered with back seat occupied

Order No. PT-9-S Bodyguard..... **$499.95** ea.

Optional PT-9-K Canine Partition

- With expanded metal window sections for ventilation.

Order No. PT-9-K Canine Partition ..... **$509.95** ea.

Please specify Make, Model and Year of Vehicle When Ordering.

The Bodyguard PT-10-S

Self-Locking Horizontal Sliding Center-Section

- 3-piece Lexan® or Plexiglass® horizontal sliding window. The horizontal sliding window slides freely on heavy duty, pile lined, rubber covered channeling, making the complete unit rattle free. Sliding window is reinforced with steel enforcement bars to prevent glass from being kicked out of framework.
- Heavy duty double extruded aluminum window frame and slide tracks mounted on the inside radius of the framework.
- All aluminum channeling has rounded edges with no mechanisms, obstructions or sharp edges protruding into the rear seat compartment.
- A unique spring-loaded locking assembly. When closing the window, it locks automatically. When depressing the lock, the spring-assisted window automatically opens partially, making the opening and closing a one-handed operation.

Order No. PT-10-S Acrylic Plastic ..... **$424.95** ea.

Order No. PT-10-SL Lexan® MR-5000..... **$479.95** ea.

K-9 Interior for Police Vehicles

E/Z Rider is a heavy duty "all aluminum" in-vehicle K-9 Container System that is extremely strong, but light-weight. Field proven to be quiet, durable, protective, and heat resistant. Front upright panel (including sliding door) is fitted with round heavy duty bars for exceptional strength for added roll-over protection.

E/Z Rider all aluminum sheet trim panels protect the doors, and all-aluminum diamond mesh window guards are hinged for easy window cleaning access. Trim panels are ready to include remote door opening systems.

"Best side and rear visibility of any unit I've ever used" and "If you couldn't see it, you wouldn't even know it's back there."

...are many Field Officers comments.

Powder Coat Paint for maximum durability.

Features:

- Field-tested by State, City and County Police.
- Rugged construction.
- Powder Coat Paint for maximum durability.
- Transferable.
- Easily installed.
- Engineered for police use.
- Increased protection to fenders, grille and headlights.
- Available in standard 12" or 16" model.
- Will not interfere with SRS Air Bag System.
- Cross support brace ideal for mounting grille lights and/or speaker system.

The Bodyguard Push Bumpers as pictured above are designed to fit most full-sized and mid-size American makes and models of cars, and are transferable by simply mounting bracket changes. The Bodyguard Push Bumpers are primarily used for pushing disabled cars off the streets, highways and bridges, thus reducing traffic tie-ups and accidents. The Push Bumpers extend approximately six inches beyond the car's existing bumpers, allowing a good turning radius while avoiding costly damage to grille, headlights and fenders.

SPORT UTILITY VEHICLES AND VANS:

Go Rhino! has over 25 years experience of building quality accessories for sport utility vehicle and trucks. Utilizing this ex-perience and listening to what installers and police department personnel want has resulted in Go Rhino!'s new law enforcement product line. Great care has been taken to ensure no drilling is required and that installation takes less than 30 minutes! Like their "civilian" products, each Go Rhino! part is custom designed for the vehicle application. This ensures ease of installation and makes the product enhance the look of the vehicle. Heavy-duty steel is used throughout with a tough chip and corrosion resistant powder coat finish.

Ford Police Interceptor TrunkVault

Sales reps love them, law enforcement officials swear by them and vandals hate them. A TrunkVault in a Ford Crown Victoria or Chevrolet Impala provides space conscious locking storage for valuables and still leaves the bulk of the trunk open for luggage, file and gear.

TrunkVault

Engineered for the special security needs of police officers, TrunkVault mounts inside the trunk of Ford's Crown Victoria and Chevrolet's Impala sedans. These lockable vaults provide maximum security for law enforcement tactical weapons, ammunition, radios and evidence. But sales people tell us the TrunkVault is ideal for securing laptop computers, cell phones and valuable samples. A sporting clay shooter installed one to keep his expensive shotguns out of harms way. TrunkVault takes up very little trunk space, features the same rugged construction as a TruckVault and comes with a premium, keyless "Touch Combo" lock system.

Whether storing tactical weapons & ammunition, briefcases, laptop computers or cameras, this unit secures and organizes your valuables.

Inside drawer dimensions
(40-1/2"W x 18-1/4"L x 6-7/8"H)

It is uniquely designed to hang from the top of the trunk space and leaves the majority of the cargo area for luggage, files or safety cones.
(43-3/4" narrowing to 31-7/8"W x 22-1/8"L x 3-7/8"H)

Carpeted or uncarpeted drawer dividers may be added to any TrunkVault to increase organization and separate sensitive equipment.

Order No. OR-002-1
TrunkVault..... **$772.95** ea.

Order No. OR-003-2

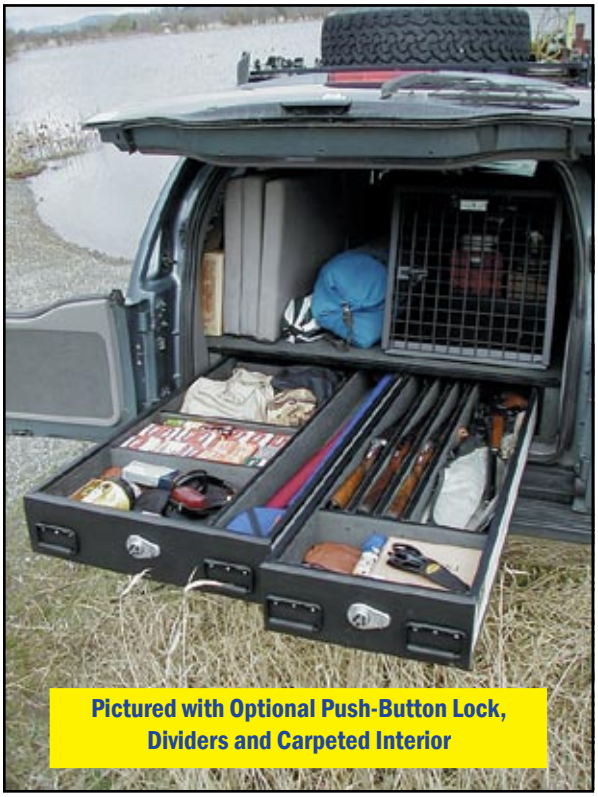
TruckVault ™



Pictured with Optional Push-Button Lock, Dividers and Carpeted Interior

Pictured with Optional Push-Button Lock, Dividers and Carpeted Interior

Gain the space and advantage you need with a secure storage solution from TruckVault.

Sheriff Deputies who patrol remote areas carry everything from emergency medical supplies to chain saws in pickups outfitted with Magnum TruckVaults.

TruckVault ™

A TruckVault in the cargo area of a pickup, SUV or van creates a false-floor secure storage area for protection of valuable sporting equipment without sacrificing load carrying capabilities. Top load the TruckVault with dogs, sporting gear or construction equipment, and you can still access your firearms, cameras or fishing rods in the locking drawers below.

WeatherTech®

FLOOR MATS

Complete Carpet Protection From Front to Rear

WeatherTech® floor mats made by Cannon, an original equipment supplier to Ford and GM. Only WeatherTech® mats give you all season protection that is both eye-catching and effective. The mats are made of up to 13 lbs. of pliable virgin rubber with deeply sculptured channels and an outer rim that traps water, road salt, mud and sand from under your heels. Even in sub-zero weather, the thick natural rubber won't curl, crack, or harden. Because of the deep ridge design, dirt comes off your shoes and stays trapped in the mat. Which means you also get added protection for your shoes as well as your carpet. The mats are designed to hold up to 1-1/2 quarts of water without spilling over. A protective, non-stick finish makes clean up quick and easy.

Z-CHAIN™ The Next Generation in Traction Products

Z-Chain is SCC's latest, most significant innovation in the field of winter traction products. Z-Chain's revolutionary design (pats. pending) represents a tremendous advancement over previous technology and eliminates the need for users to sacrifice convenient installation to get traction performance.

SCC Security Chain Co.

"Z"-shaped crossmember pattern:

- Provides constant contact between the treadface and road surface to deliver maximum tractive force. No "ladder-shaped" traction product can equal this performance.
- Gives outstanding lateral traction (for cornering and braking control) in addition to considerable starting and stopping traction.
- Maximizes efficiency of anti-lock braking.
- Minimizes "throw-out" for effective operation on vehicles with limited clearance around OEM tires. Meets SAE Class "S" clearance requirements.
- Gives more gradual contact with the road surface, which allows use of larger diameter rollers without a corresponding increase in crossmember "thump". Larger rollers mean more aggressive snow traction.
- Six outside points of adjustment; three adjustable by the user and three self-adjusting.
- Provide effective fit without the need for a separate chain tightener. Maximum adaptability makes it possible to fit all passenger car tires with only six Z-Chain stock numbers.
- "Spring" crossmember orientation of crossmembers, provide greater impact resistance for bare road wear and resist "flattening" common to solid rollers.

Fits Both Ford Crown Victoria and/or Chevy Impala

KESON

The Workhorse of the Industry Handles Professional Measuring Jobs Easily

Ideal for long indoor runs such as plant floor plans or outdoor measuring on firm surfaces. Large 1 meter circumference (39.37") is more accurate over rough surfaces. The modern 3-spoke design wheel is not likely to get caught when measuring in tall grass, unlike wire spokes. Wheel is made of tough engineered plastic and has a molded rubber tire. No need to worry about corrosion. The unit adds in forward motion and subtracts in backwards motion. Counter features 5 digits and a reset button. The sturdy telescoping aluminum handle adjust to fit the individual. Includes: curved handle and molded grip. Weight: 3.6 lbs. Packed 1 per carton. Backed by a 2 year warranty from date of purchase.

Order No. TP-RR-318N
Graduated Feet and Inches..... $69.95 ea.

Ideal for Measuring on Smooth Surfaces. Double Wheels for Best Balance.

Order No. TP-RR-182

Built to last, dual wheel model features rubber tires, include accurately molded solid feet and inches, a 5 digit counter graduated in and a curved or feet and 10ths of a foot, goes to 10,000 feet telescoping handle. Counter reset at any time without resetting. To reset button. This simply push the when rolled forward model counts when pulled in and subtracts by a 2 year warranty reverse. Backed from the date of purchase.

Weight: 2.5 lbs. Packed 1 per carton

Order No. TP-RR-182
Graduated Feet and Inches ..... $49.95 ea.

Traffic Equipment

Traffic Cones

Fluorescent Cones offer outstanding visibility. "Slim line" construction which decreases wind lift, teamed with rubber base (for underslung center of gravity) adds up to the most stable cone on the road. **Minimum packing is 10 cones.**

All Fluorescent Model
We also offer entirely fluorescent vinyl cones including base.
Minimum 20.

Order No. TP-CTS 18

Perimeter Control Technology

FLEX-SAFE BARRICADES

Folded
4' high x 8" long

Fully Extended
38" high x 7.5' long

Flex-Safe Barricades are unlike any other barricade on the market today. The unique X-Brace design unfolds instantly to create the most versatile and complete perimeter management system available anywhere.
Convenient lock-straps quickly connect each unit to the next, allowing virtually any configuration, on any site.
Each barricade folds down into an extremely compact unit that is easy to carry and convenient to store.
Easy to use and highly effective, combining strength, light weight materials with state of the art design, Flex-Safe safety barricades offer a professional solution for a perimeter control and pedestrian traffic management.

P.A.W.S.

Personal Antimicrobial Wipe by Safetec

A premoistened 5" x 8" towelette with PCMX and SD-Alcohol to provide instant degerming of hands and extended antimicrobial activity. Individually packaged for convenience and assured effectiveness.

P.A.W.S. Features:

- Formulated with PCMX and SD-Alcohol, recognized as effective antiseptics.
- Contains aloe vera to condition the skin, to maintain dermal integrity, and help prevent additional microbial activity.
- Individually packaged to provide assured potency and practical field use.
- Towelettes help remove transient and resident bacteria.

Benefits:

- Long Lasting antimicrobial action.
- Effective on bacteria commonly found on hands in hospitals and clinics.
- Provides compliance to OSHA Bloodborne Pathogen Regulations.
- Towelette removes "organic matter" from hands.
- Reduces cross contamination.

Emergency Products

Disposable Emergency Blanket Size 60" x 90"

Used by Police, Fire, Emergency Units, and for Industrial Safety Nationwide.

U.S. Laminating's Disposable Emergency Blanket is inexpensive yet strong, resists mildew and infestation, making its use unlimited. Constructed with foam lamination over poly, it retains body heat longer and is water repellent. Each blanket is bright yellow and comes individually wrapped in a plastic bag to stay clean indefinitely.

Single Emergency Blanket

Order No. RP-D6090 — $5.95 each Blanket

Case of 10 Emergency Blankets

Order No. RP-D6090C — $49.95 each Case

TWO STYLES AVAILABLE:

Order No. RP-10247 Utility
Order No. RP-10249 All-Purpose

The Great Utility Blanket

This 30% virgin wool blanket is the only product of its kind on the market. A reusable blanket at disposable prices! Guaranteed to retain its size with minimal shrinkage, even in institutional washing and drying.

Order No. RP-10247 62" x 82" Gray $9.95 ea.

Mr. All Purpose

70% Wool 30% Man Made Fibers. Flame retardant in accordance with Federal Act Title XI 1610 CFR. Everyone's price point favorite! Sturdy, strong & warm with that big wool content.

Order No. RP-10249 62" x 82" Gray $17.95 ea.

Rescue Equipment

Recovery Aids: Throw Ropes, and ResQ Disc

Throw Ropes

Make line delivery easy and accurate!

An improvement on the monkey's fist, these throw bags provide a way to accurately deliver a line to a person in the water or to land a messenger line onto another boat. Simply loosen the draw string, hold the top loop on one hand and throw the bag underhand with the other. The buoyant bag contains a length of specially constructed 3/8" braided polypropylene line that floats indefinitely. Meets ORC specification #4.23 for ocean racing. ShWt 2

Order No. RP-HL50FT

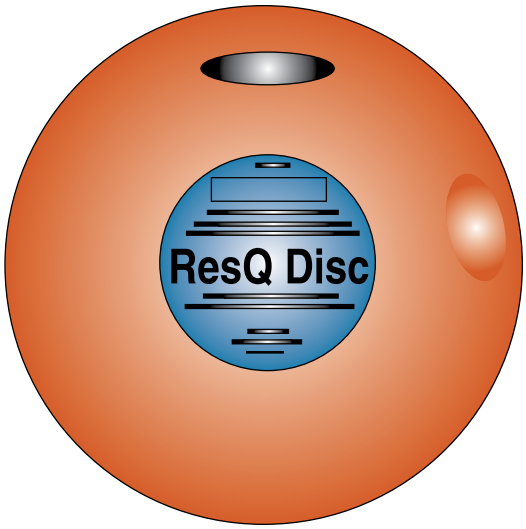
50' Length ..... $42.50 ea.

Life Ring

20" Diameter / Safety Orange

Order No. RP-G020 Without Rope ..... $59.95 ea.

Order No. RP-G020R With 50 Feet of 3/8" Rope ..... $79.95 ea.



Water Rescue Disc

"ResQ DISC Makes an Onlooker a Rescuer"

ResQ DISC is a simple, dependable and inexpensive float on a line that flies like a FRISBEE. The 12-inch diameter disc has 100 feet of 500 pound test yellow floating line with buoyancy of over 5 pounds in water to keep even the largest swimmer afloat. The disc is easy to carry in your boat, car and truck; so it is available when you need it.

ResQ DISC can be used for water and ice rescues in all situations in open ocean, rivers, lakes, reservoirs, tanks, ponds and pools. **Over 15,000 DISCS are in the hands of rescue professionals nationwide.** Members of the rescue community are enthusiastic in their support of our national effort to substantially reduce drowning with the ResQ DISC.

Order No. RP-RESQDISC

Qty: 1 - 11 ..... $29.95 ea.

TERMS AND CONDITIONS OF SALE

ORDERING IS EASY

By Telephone:.....Toll Free (800) 232-0162
By Fax: .....Toll Free (800) 710-9099

Regular Business Hours

Monday thru Friday 8:00 a.m. - 5:00 p.m.
(Eastern Standard Time)

1. **PAYMENT TERMS**
   Agencies that are Municipally funded may be given 30 day terms, all additional charge requests must be pre-approved.

   Agencies must fax the first order on an agency purchase order or letterhead.

   A. **Method:** You can choose from C.O.D. (Certified Check or Money Order) or use Visa or MasterCard.

   Adamson Industries reserves the right to change payment terms at any time.

   B. **Payment:** All payments are payable in U.S. funds. Where applicable, custom charges will be applied.

   C. **Sales Tax:** Agencies will be exempt; all others, sales tax will be added to your invoice unless an acceptable Resale Exempt number is provided.

   D. **Shipping:** Every effort is made to ship your product within 24 hours from when we receive your order. Shipment should arrive within 10 business days. All shipping charges are based on the dollar amount of your order, unless otherwise stated. Please provide a street address.

   Next Day or 2nd Day Air may be provided for an additional charge.

2. **PRICES:** Our prices are FOB shipping point, with charges added to the invoice for shipping and handling. Because of the breed and depth of our product line, prices are subject to change without notice.

3. **OFFER TO SELL:** Possession of our catalog and flyer does not necessarily constitute an offer to sell; we sell only to Law Enforcement Agencies and authorized radio and light bar dealers. We reserve the right to refuse to sell or ship merchandise to anyone.

4. **TEN DAY MONEY BACK GUARANTEE:** If you are not satisfied for any reason, return your purchase in original condition and original packaging to Adamson Industries for a refund or credit. Under this 10-day Guarantee, the return must arrive at Adamson Industries within 10 working days after your receipt of the merchandise.

   Please call 978-681-0370 to receive a RMA#. Return the merchandise freight prepaid, naturally this guarantee does not apply to any special orders.

5. **RETURNS:** Even after the 10-Day Guarantee period has expired, you can return goods to Adamson Industries within 30 days after initial receipt, subject to a 25% restocking fee. Return merchandise will be accepted with a RMA#. (Call 978-681-0370 for RMA#.) Freight must be prepaid. No returns will be accepted after the 30-day period has expired. **No returns on Prisoner Partitions, K-9 Interiors, Prisoner Seats and Truck Vault Storage Systems.**

6. **WARRANTY:** Merchandise not covered under sections 4 & 5 above will be entitled to the benefit of any manufacturer's warranty, and we will assist you in the process. Adamson Industries make no expressed or implied warranties including the implied warranties of merchantability of fitness for a particular purpose with respect to any goods and/or services sold to you.

7. **LOST SHIPMENTS:** As soon as you realize the shipment may have been lost, call Adamson Industries at once so we can begin the tracing process.

8. **DAMAGES IN SHIPMENT:** All goods are shipped FOB shipping point. Adamson Industries is not responsible for merchandise damaged in shipment. If shipping damage occurs, please take the following action. (1) Do not accept a visually damaged product until the person making the delivery has endorsed the bill of lading with a statement for the extent of the damage. (2) If damage is found after unpacking, retain all packing material and immediately request that the carrier arrange for inspection. (3) Any claims of damaged merchandise are between you and the carrier.

9. **MISCELLANEOUS - PLEASE READ**

   SHIPPING & DELIVERY: Adamson Industries shall arrange for transportation, at your expense, to the address designated by you. Shipping date and delivery dates are estimates, and may be delayed by (1) late receipt of all necessary information by Adamson Industries, (2) prior scheduling if shipping and/or delivery dates are confirmed by you at the time your order is received by Adamson Industries, (3) other causes beyond Adamson Industries reasonable control. In any such event, Adamson Industries shall not be liable to you for any loss of time, material, or production, or any other loss resulting from late delivery of goods.

   EXCLUSION OF LIABILITY FOR DAMAGES: In no event shall Adamson Industries be liable to you under any cause or claim of any nature whatsoever, regardless of whether characterized as a tort, negligence, contract, warranty, or otherwise, for any loss of profits or other economic loss, including, but not limited to such losses as (1) wages paid to your employees, (2) lost revenue, (3) lost use of equipment, (4) purchase lease, or acquisition of replacement, substitute, or temporary equipment, facilities of services, (5) cost of capital, (6) costs or losses related to downtime, (7) manual labor cost, (8) or any other indirect, incidental, special, consequential, or other similar damages arising out of any claim relating to purchase of goods and/or services from Adamson Industries, including losses resulting from general or particular requirements and needs of buyer, whether or not Adamson Industries, at the time of contracting, had reason to know of such requirements or needs, and whether or not such losses could have been reasonable and prevented by you by cover or otherwise. Adamson Industries' liability to you shall in no event exceed the purchase prices of the items giving rise to Adamson Industries' liability to you.

   CHOICE OF LAW AND FORUM SELECTION: All dealings between Adamson Industries and you shall be governed by the laws of Massachusetts. Any legal or equitable action of whatever nature against Adamson Industries arising out of or related in any respect to this agreement or any purchase order, or arising out of any dealings between Adamson Industries and you shall solely be brought in the appropriate court of the State of Massachusetts located in the jurisdiction where Adamson Industries has its principal place of business.
